

INDIA POST now Packs, Posts, and much more...

Don't just wrap & mail - PackPost it..

Any international or domestic package like EMS Speed Post, Air, SAL (Surface Air Lifted), Registered Parcels, EPP (Express Parcel Post) parcels during its long transit will have to withstand shocks and pressures that are an unavoidable part of any journey. Inadequate packing can often lead to delay, damage and / or detention of the item. Proper packaging is therefore essential to protect the contents.
