

## My Stamp - get your personalized Stamp

Everyone would love to have a stamp brought out on him/herself and attain distinction in the hall of honour until recently reserved only for who-is-who. India Post now makes it possible to have a stamp brought out on yourself. My stamp will form part of detachable regular postage stamp and that could be used for mailing purpose. With **My Stamp** you can express your feelings to your loved ones with the personal touch and wow them even before they open their mail. **My Stamp** allows you to print your favourite photos. Just imagine about-to-be-weds sending their wedding card invitation with their photos together. Well, the Post Office will make sure not to deface your stamp with the killer ink-mark but would very sensitively leave it intact and affix a small cancellation mark on the edge of the attached postage stamp. However, this can be done at the GPO Philately Bureau only and not if your mail is dropped in the street letter box.

The GPO very thoughtfully has elegant photo frames also that makes it convenient for you to exhibit a few

of your photo-stamp for display in the showcase at home.

So what are you waiting for, go & get yourself a stamp of honour !
